

Public sector enterprise agreement: campaign update #25

7 NOVEMBER 2016

Public sector nurses and midwives approve new agreement

Victorian public sector nurses and midwives have voted to approve the 2016–20 enterprise agreement. Of those who voted, 98.54 per cent voted in favour of the EBA.

The ballot, of all public sector nursing and midwifery employees (not just ANMF members), closed 5pm on Friday 4 November.

Thank you to all members who voted. ANMF understands some members experienced frustrating technical issues with the electronic format of the ballot, and delays with their employer providing the necessary information to vote. The obligation to conduct the ballot is with your employer. Your feedback will be reviewed for future ballots.

An application will now be made for the EBA to be approved by the Fair Work Commission, and becomes legally enforceable seven days after that approval.
