Health Service Violence Prevention Fund Rounds 1, 2 and 3

Acute Health and Mental Health

The Victorian Government has allocated $17 million in three rounds of funding for capital works to prevent violence in public health services. Funding has been allocated as follows:

Round one: 2015–16 $3 million for violence prevention projects to health facilities, with half going to acute and half to mental health services.

Round two: 2016–17 $7 million between acute and mental health services for violence prevention

Round three: 2017–18 $7 million to health services for safety improvements in acute and mental health wards.

Details of the projects are detailed in this document.

We encourage members to report back to ANMF via **anmfvic.asn.au/hsvpf** on the status of projects in rounds 1, 2 and 3.

2016–17 Health Service Violence Prevention Fund Round 2 | Acute Health

Region	Health Service	Hospital / Campus/ Community Health Centre	Project scope / replacement asset
Metropolitan	Alfred Health	The Alfred	Increased ward security – staged over 2 years by.
			Installing security boom with proximity to card readers on each of the 5 levels.
			Providing video surveillance with an intercom system at ward entry doors to control entry/exit to wards from lift lobby and stairwells.
		All Alfred Health sites	200 personal duress devices for community based staff.
	Melbourne Health	Royal Melbourne Hospital City Campus	Installation of Closed Circuit Television (CCTV)/Fixed duress buttons.
			Access control measures of the South Block ward and Outpatient clinical areas at the Royal Melbourne Hospital (RMH).
	Mercy Health	Mercy Hospital	Reconfigure triage area and security office within ED to improve staff visibility into waiting area and reduce security risks to staff and patients.
	Monash Health	MMC Clayton. 122 Thomas Street Dandenong and 55 Buckingham Avenue Springvale	This project will address the CCTV shortage and provide the ability to lockdown the facility from a centralised location.
		Casey and Dandenong Hospitals	Upgrade security within key areas including Emergency Department, Maternity Birth Unit and Diagnostic Imaging by providing CCTV cameras and electronic access controls and doors at entrance points.
	Northern Health	Bundoora Campus	Improvements to reduce occupational violence Including installation of sound absorbing surfaces in general areas and boardrooms.
			Provide new dividing wall and door in common area.
			Install a roller shutter grill in ward kitchen.
			Replace bedroom windows with double glazed laminated glass and external windows with Internal blinds.
			Integrate clinical and OH&S duress alarm systems.
	Peninsula Health	All sites – Peninsula Health	Purchase 410 personal duress devices for teams providing a home and community visiting service.
	St Vincent's Health	Multi-campus including Fitzroy. St George's Hospital, Mental Health Community facilities, Darebin Community Rehabilitation Centre and North Richmond Community Health	Mitigate risks to workers using real time monitoring of staff safety and wellbeing, including the tracking of duress; GPS guided staff location finding and the rapid response by trained personnel.
	St Vincent's Health	Fitzroy	Install a perspex screen around staff work stations.
	The Royal Women's Hospital	Parkville	Installation of additional duress alarms in the Outpatient Clinic Areas.
			Installation of two security swipe access control door mechanisms for the Women's Emergency Care Department.
			Purchase of portable duress alarms for the Women's Alcohol and Drug Service.
	Western Health	Footscray and Sunshine	Install signage, video/DVD, GP Helpdesk x 3 (2 in Sunshine ED, 1 in Footscray), monitors x 2 with wait times showing.
			Better environment, diversion and engagement with patients with behaviours of concern in acute medical wards.
Barwon South Western	Barwon Health	University Hospital Geelong	Upgrade of emergency department security.
			Provide swipe access to all medication areas in resuscitation areas.
			Place swipe access on doorway entering off corridor behind triage.
		All	Personal alarms community based programs (funding for purchase of alarm only).

Region	Health Service	Hospital / Campus/ Community Health Centre	Project scope / replacement asset
Barwon South Western	Terrang and Mortlake Health Service	Josie Black Community Health Service	Secure reception area/waiting room area and day centre area.
Damon South Western	Lorne Community Hospital	Lorne	Nurse Safety First: Duress Alarms for Lorne Community Hospital.
Gippsland	Bairnsdale Regional Health Service	Acute campus	Carpark CCTV.
	Bass Coast Health	Wonthaggi	Security system package to reduce occupational violence.
	Central Gippsland Health Service	Sale	Install security screens and glass sliding door.
			CCTV, portable duress alarms and swipe access.
	Kooweerup Regional Health Service	Kooweerup	Installation of closed circuit TV and expansion of duress system.
Grampians	Ballarat Health Services	Base Hospital Ballarat	Install secure access and egress for wards and for internal staff only areas to address staff safety in critical incidents particularly after hours.
	Beaufort and Skipton Health Service	Beaufort and Skipton Health Service	Upgrade CCTV across Beaufort and Skipton campuses.
			Upgrade door between entrance areas and patient care areas.
			Upgrade glass in reception areas.
	East Grampians Health Service	Ararat Campus	CCTV installation and upgrade.
		Donald	Install automatic outer and inner door at ambulance entrance/after hours entrance.
			Redesign the entrance, lighting, floor covering, signage and security.
			EWHS Donald Campus Aged Care Nurses Station Project.
	Rural Northwest Health	Warracknabeal	Modifications to the front administration counter to minimise / prevent violence against frontline staff.
	Stawell Regional Health	Main hospital	Toughened glass and additional doors to provide greater staff security and reduce increasing incidents of occupational violence at key entry/risk points.
	West Wimmera Health Service	Jeparit, Rainbow, Kaniva, Nhill, Rupanyup	Increase acute access restriction and improve recorded video surveillance Internally and externally.
	Wimmera Health Care Group	Horsham	Intensive Care Unit security upgrade.
			Install swipe card access points to Intensive Care Unit.
Hume	Benalla Health	Ray Sweeney Centre Community Health	Install sensors in high risk locations.
	Cobram District Health	Cobram District Health	Renovation and installation of a new nurses station.
			Reception desk for acute ward.
	Kilmore and District Hospital	Kilmore	Emergency response communication system (funding for purchase of 5 duress alarms only).
	Northeast Health Wangaratta	NHW Green Street campus	Increased CCTV Security.
	Numurkah District Health Service	Northern Pioneers Memorial Lodge	CCTV Security Installation.
	Seymour Health	Seymour	Increasing security through lighting, monitoring and duress alarms.
Loddon Mallee	Booart District Health	Primary care facility on hospital campus	Upgrade to an isolated primary care service building to create a safe work space.
	Castlemaine Health	Castlemaine	After hours security.
			Upgrade building access system with automated lock down of building after hours.
			Emergency lock down during normal hours from main reception and urgent care reception.
			Swipe card after hours building access with individual staff Identification card.
			Data logging of afterhours entry, boom access and attempted.
			Access through restricted door, external door release when fire mode is active.

Region	Health Service	Hospital / Campus/ Community Health Centre	Project scope / replacement asset
	Cohuna District Hospital	Cohuna District Hospital	Upgrade duress alarm system.
			Safe provision of Needle and Syringe Program.
	Echuca Regional Health	Echuca	Purchase and Installation of a duress system for solo workers in home community settings.
			Needle Syringe Program Access Project.
	Heathcote Health	Heathcote	Heathcote Health Security Upgrade.
	Kyabram and District Health Service	Kyabram	Purchase 20 handsets and10 portable duress buttons to enhance staff, patient and visitor safety and minimise risk In vulnerable situations.
	Kyneton District Health Service	Kyneton Hospital	Minor refurbishment and infrastructure changes to Urgent Care, Acute Ward, Patient reception/admissions.
	Robinvale District Health Services	Main campus Robinvale	CCTV and security.
South Western	Moyne Health Services	Port Fairy	Mobile Duress System.

2016–17 Health Service Violence Prevention Fund Round 2 | Ambulance

Region	Health Service	Hospital / Campus/ Community Health Centre	Project scope / replacement asset
–	Ambulance Victoria	Ambulance Victoria	Pilot of body worn cameras for Ambulance Victoria.
			A pilot project to evaluate the effectiveness of 200 Body warn Cameras (BCWs) in changing community behaviour in high-risk areas to reduce ‘paramedic exposure to occupational violence.

2016–17 Health Service Violence Prevention Fund Round 2 | Mental health

Region	Health Service	Hospital / Campus/ Community Health Centre	Project scope / replacement asset
Metropolitan	Alfred Health	The Alfred	Create a clear safe and secure mental health inpatient unit reception area / entrance environment for the safety of staff, consumers and visitors.
	Austin Health	Heidelberg Off-site Mental Health	Refurbish offices and interview rooms with a secondary egress door to improve staff safety.
	Eastern Health	Maroondah Mental Health Services , Maroondah Community Care Ural and Maroondah Hospital Inpatient Units	Redesign of the Murnong Clinic to ensure staff egress and improvements in security systems at Maroondah Community Care Unit and Maroondah Hospital Inpatient Units.
	Eastern Health	Chandler Clinic	Chandler Clinic Egress Enhancement Project.
		Multiple sites	Eastern Health security systems enhancement project CCTV Systems.
	Forensicare	Thomas Embling Hospital	Swipe card access for interview rooms and Women’s Unit bedrooms.
			Improve the seclusion areas to meet contemporary practice and experience and improve safety for staff and consumers.
			Replacement of Interview Room windows.
			CCTVs for Acute and Subacute Units.
	North Western Mental Health (NWMH), Melbourne Health	Royal Melbourne Hospital Campus, Sunshine Hospital Campus, Western Hospital Campus Footscray, Broadmeadows Health Service and Northern Hospital Campus	Provision of specialised furniture for Northwestern Mental Health Acute Psychiatry Inpatient Units (IPUs) lounges and dining rooms.
	Peninsula Health	Frankston Hospital	Refurbishment of five under-utilised areas to provide adequate space and safe places for the consumers, visitors and staff.
	St Vincent’s Health	St Vincent’s Hospital Melbourne Mental Health	St Vincent’s Hospital Melbourne Mental Health Reception Redesign.
	The Royal Children’s Hospital	Banksia Adolescent Inpatient Mental Health ward	Sensory spaces project- refurbishment of the inpatient mental health dining area and four bed pod, lounge area, staff observation office and beverage bay.

Region	Health Service	Hospital / Campus/ Community Health Centre	Project scope / replacement asset
Hume	Goulburn Valley Health	Graham Street Campus, Centre for Older Persons Health, Community Heath©GvHealth, Ambulatory Aged Care Program, Seymour Campus and Waranga Campus Shepparton	Duress – Lone Worker Situation.
		Shepparton	Upgrade security lighting (external building and car park lighting).
Gippsland	Latrobe Regional Hospital	Traralgon	Upgrade CCTV systems to reduce risks to staff, consumers and visitors.

Region	Health Service	Hospital / Campus/ Community Health Centre	Project scope / replacement asset
Metropolitan	Alfred Health	Caulfield Hospital – Aged Care Geriatric Evaluation Management, Rehabilitation and Aged Psychiatry Inpatient Wards	Installation of inpatient staff duress system.
		Alfred Hospital Main Entry / Main Reception Areas	Installation of a new main entry doorway system with remote operation, and redesign of main entry reception area.
		Alfred Main Ward Block Violence Prevention Project Main ward Block levels 3,4,5,6 and 7.	Install 6 security doors with proximity card readers on each of 5 levels, provide video surveillance with an intercom system at 5 ward entry doors, replace 5 existing doors controlling entry/exit to ward from lift lobby and stairwells.
	Austin Health	Austin Hospital – Acute medical wards	Establishment of sensory rooms for behaviour de-escalation.
	Eastern Health	Box Hill, Maroondah, Angliss Hospitals, Peter James Centre and Wantirna Health	Installation of CCTV at external entrances at Maroondah and Box Hill.
		Ambulatory Care, Community Health and Acute Services	Implementation of 150 portable duress alarms for the Ambulatory Care and Acute Home Visiting services.
		Box Hill, Maroondah, Angliss Hospitals, Peter James Centre and Wantirna Health	Installation of new lock system to enable front entrances of bedded sites to be locked down remotely by staff and security at Eastern Health.
	Melbourne Health	Royal Melbourne Hospital City Campus – Acute campus, Clinical patient care areas: 1B Building wards ICU, 7B,CCU, 2B, Radiology, Outpatient Clinic, Emergency Department, Short Stay Unit, Behavioural Assessment Unit, Transit Lounge. Main Block Wards 7W, 6W, 5W, 5E, 5N, 4 N, 3E2W, 2E. South Wing Outpatient Clinic. Centre for Medical Research Building Anatomical Pathology, Nuclear Medicine clinic. Private Radiology, Pathology, MRI. Private consulting suites waiting areas. NorthWestern Mental Health John Cade building L2 and L1	Installation of 110 CCTV cameras and 23 fixed position duress buttons to public areas within patient based wards and departments of the Royal Melbourne Hospital, City Campus.
		Royal Melbourne Hospital City Campus – Acute campus – Emergency Department	Reconfiguration of the Emergency Department triage and admission desk to improve staff safety.
	Monash Health	Monash Clayton and Dandenong campuses	Implementation of 18 vests and 18 cameras for trial at Monash Clayton and Dandenong campuses.
		Monash Medical Centre Clayton – Levels 1 and 2, McCulloch House (Palliative care), Community Centres Springvale and Dandenong	Electronic Security System Upgrade.
	Northern Health	All campuses	Introduction of 75 duress alarms for Safe Home Visiting services at Northern Health.
		The Northern Hospital – Emergency Department	Refurbishments to Resuscitation 3 cubicle including security upgrades, secure storage, duress alarm system and CCTV cameras.
		The Northern Hospital – Operating suite reception and recovery and maternity reception	Securing vulnerable patient areas through installation of automatic doors and swipe card access.
	Peninsula Health	Frankston Hospital	Installation of 35 CCTV cameras and fixed duress system at Frankston Hospital.
	St Vincent's Health	St Vincent's Hospital Fitzroy – All Fitzroy campus and Emergency Department	Provision of 22 stab resistant vests for security officers.

Region	Health Service	Hospital / Campus/ Community Health Centre	Project scope / replacement asset
		St Vincent's Hospital Fitzroy – Main Building A: Fire Escapes; Foyers; Acute Wards; Level 2; Day Procedure Unit; Intensive Care Unit; Medical Imaging Building F: Bolte Wing Building D: Daly Specialist Clinics	Improvement of access control systems and duress alarms in Daly Clinics, Bolte lifts and fire doors and foyer doors and fire escapes.
Barwon South Western	Barwon Health	University Hospital Geelong – Emergency Department and Heath Wing inpatient wards	Installation of a wireless infrared mobile duress system.
		University Hospital Geelong – Eleven acute inpatient wards	Installation of after-hours secure swipe card access to eleven non-secure inpatient wards.
	Lorne Community Hospital	Lorne Community Hospital – Hospital entry and the Urgent Care Unit	Installation of swipe card access control system to 9 doors.
	Terang and Mortlake Health Service	Mortlake Community Health Centre	Mortlake Community Health Centre Installation of 8 CCTV cameras, 4 coded locks, and new lockable doors for administration office.
	Western Health	Footscray Hospital – Emergency Department and adjacent external areas	Expansion and rationalisation of duress system, installation of 18 CCTV cameras for the Emergency Department and adjacent external areas.
Grampians	Ballarat Health Services	Ballarat Hospital – Queen Elizabeth site (sub- acute)	Swipe card access control: ground floor doors, base site and Queen Elizabeth site.
	East Grampians Health Service	Willaura Campus	Installation of CCTV, perimeter door access controls and upgrade duress and nurse call systems.
Hume	Albury Wodonga Health	Wodonga – whole of campus	Upgrade of alarm and swipe card access system for Wodonga Hospital.
	Beechworth Health Service	Sydney Road – Acute Unit	Remodel of the nurses station and provide additional egress for two consultation rooms.

2017–18 Health Service Violence Prevention Fund-Round 3 | Mental Health

Region	Health Service	Hospital / Campus/ Community Health Centre	Project scope / replacement asset
Metropolitan	Alfred Health	Caulfield Hospital – Older Person's Inpatient Mental Health ward.	Installation of inpatient staff duress system at Older Person's Inpatient Mental Health ward.
	Eastern Health	Box Hill, Maroondah and Peter James Centre – Acute Inpatient Unit	Swipe activated door mechanisms to all bedrooms in all adult and aged persons acute mental health inpatient settings, and installation of client activated duress alarm system.
		Box Hill, Maroondah, Angliss Hospitals, Peter James Centre and Wantirna Health	Installation of CCTV cameras at the external entrances Upton House.
	Mercy Health	Mercy Mental Health Community Care Unit, Werribee	New access/egress door for treatment room, and installation of swipe card activated door mechanisms to all four doors within the Community Care Unit.
	Melbourne Health	Royal Melbourne Hospital City Campus – Acute campus – Acute Inpatient Unit	Refurbishment of Adult Acute Mental Health Inpatient Unit Intensive Care Area.
		NorthWestern Mental Health, Orygen Youth Health, Inpatient Unit, Mavis Street Footscray	Creation of an Intensive Care Area (bedroom lounge / retreat to enable agitated and unwell patients to be separated from each other to improve the safety of patients and staff.
